ABOUT ME

I am a passionate software developer specializing in Microsoft technologies, with deep expertise in .NET and Azure. My journey spans various projects, including e-commerce platforms, accounting software, and insurance systems. Additionally, as a freelancer, I have worked with different technologies and CMS solutions to optimize digital presence at a lower cost. At the same time,I find myself diving into UI/UX, achieving that with Angular, and I find immense joy in working in collaborative environments, discussing technical challenges, refining architectures, and implementing the best design patterns to build scalable and high-performance solutions.

EDUCATION

Master's Degree In Media Engineering — Speciality : Web Development

Higher Institute Of Multimedia Arts Of Manouba

From 2020 To 2022 — Manouba, Tunisia

Bachelor Degree In Multimedia And Communications

Higher Institute Of Multimedia Arts Of Manouba

From 2017 To 2020 — Manouba, Tunisia

EXPERIENCES

Software Engineer Microsoft Azure — At CED Europe - Full time

From May 2024 To Present — Location : Tunisia - Hybrid

At CED Europe Companies, we are working on complement insurance software, focusing on Microsoft's technology stack, including .NET, Azure DevOps, and Azure Portal.

Through this experience, I contribute to achieving:

- Developing scalable and maintainable code, ensuring the long-term stability of the software.
- Integrating new technologies into existing systems, increasing capabilities and improving overall performance.
- Developing reusable components that significantly reduced development effort across multiple projects.
  Adding unit tests for existing functionalities to enhance stability and agility for new modifications and features.
- Deep diving into Sonar issues to resolve existing problems, ensuring high-quality code, and enhancing clean code practices by adopting SOLID principles.

Expert University Teacher — At Higher Institute Of Multimedia Arts Of Manouba(ISAMM) - Part time

From Sept 2024 To Present — Location : Tunisia - On site

As an expert university teacher, I worked closely with students to enrich their learning experience and develop their foundational knowledge in web development and object-oriented programming. Through hands-on projects, interactive lectures, and continuous mentorship, I helped them build essential skills and apply their knowledge in practical situations.
